

Good Clinical Practice for Research Professionals

Don't miss the internationally recognised GCP Course.

CLASSROOM COURSE

Do you work in Clinical Research?

Are you looking for a course to increase your knowledge and understand of what GCP means for your clinical practice? The key to working appropriately in clinical trials is an understanding of the overall picture and why GCP is important to all parties: sponsors, sites, trial volunteers, ethics and regulators. In addition the course covers the international perspective including the FDA code of federal regulations and the EU Directive, and how these impact on your studies.

Who should attend?

Clinical researchers working in any area who wish to review and apply their knowledge gained in formal GCP training

Course Includes:

- The program will cover
- Details and updates of ICH GCP for Australia
 - Trial design, documents and processes
 - Australian and international regulations and ethics
 - Sponsor/regulatory audits and inspections
 - Course book, CD, GCP Q&A Reference Book, certificate, all meals & refreshments

Why the NNE ACRP based course

- It is an internationally recognised course
- Accepted globally as gold standard
- Tailored for Australian regulatory environment
- Accredited and ACRP certified trainers
- Quality materials and resources
