

Nucleus Network Education partners with leading providers of clinical research training to provide customised Australian courses with a global perspective.

All courses are delivered by a faculty of accredited and certified trainers who have demonstrated their high level of knowledge and application of ICH Guidelines, TGA, FDA and EU regulations.

Think Globally - Act Locally

NEWS !! Nucleus Network Education Hybrid 2-day courses & online modules now form a **credit** in The University of Melbourne Clinical Research Masters Graduate Program

Nucleus Network Education, in conjunction with ClinfoSource, now offers courses for those who cannot attend a classroom course or who prefer training at a different time to a scheduled course. The classroom and online courses provide a complimentary suite of courses to support studies at a more advanced course level. The different formats also provide a varied learning experience

There are **5** complete certificate **online** courses:

1. Site Personnel – Core Training
 2. Site Personnel – Advanced Training I
 3. Sponsor/CRO – Core Training
 4. Sponsor/CRO – Advanced Training I
 5. Site/Sponsor/CRO – Advanced Training II
- Alternatively there are over 50 individual modules to choose

Find out how online courses are now used by sites and sponsors as part of their internal training programs.

Certification:

Since Sept 2003 have been conducted in this region. After 12 exams rounds with sites in Melbourne, Sydney, Brisbane, Perth, Adelaide & Auckland, we have been the only country to have a **100%** pass rate and we have now done this **5** times. Congratulations to all candidates!!

As many candidates reveal a common sentiment:

"...we all found the process very useful professionally regardless of whether we had passed or not."

Recertification:

Don't forget your recertification can be any GCP educational activities in which you currently participate. Completion of 24 contact hours -12 research related - in the last 2 years. Collect points:

- become an ACRP trainer
- attend educational events/webinars/uni courses
- complete home-study tests from the MONITOR
- ClinfoSource online course modules (2hrs each)

Next Exam Saturday, Sept 12. Application deadline July 13, 2009

Courses:

Book early to secure your place
